Used to Worry

Because his advertisements in the local papers didn't
seem to attract attention—didn't draw a crowd to his
store and help him to sell goods.

NOW HE DON'T WORRY

Why? Because he has found that he can get fifty first-
rate ads, check full of suggestions, the best that are ap-
pearing in his line in newspapers the country over for
a dollar—and that with their help it is mere play to ar-
range ads which fill the bill to a "T." You can do the
same. All times. Send a dollar to

A SKEPTICAL WORLD.

Imaginary bracharia named

after my success of alleged

fact had predicted the end of

the world setting data for its occur-

rence and describing the method of

its destruction. Such prophe-

cies have been recurring at irreg-
ular intervals ever since the de-
luge.

Prof. Rudolph Falb, of Vienna,
la, however, the first professional
scientist to make the statement
that this sphere is approaching
its last act, and to name the day
of the year, month and week, and
the very hour, of the rigging
down of its final curtain.

He gives a scientific reason for
the world's taking off for
good and all and says it will
be smashed into fragments and
scattered by a swift butt from the
temple comet. The collision is
scheduled to take place at three
o'clock sharp on the afternoon of
Monday, Nov. 13, so the ones
who care to make their escape to
Mars and the Moon have but lit-
tle time to get ready their bal-
loons and airships.

The comet scare has been
swerving several times before. Falb
scientific deductions to prove
that manmade destruction is at
hand may frighten a few nervous
and credulous natures, but a ma-
jority of those who read them are
likely to sneer. It will probably
require a whole flock of scolding
comets to jar the skepticism out
of these doubting Thomases.

Falb will never convince human-
ity that he is a prophet until he
brings out his shooting star and
knocks Mother Earth into a huge
dustheap.

—Levi Bates, Esq., of Hickman, called
in to see me Tuesday. Mr. Bates
formerly lived at Boston, but removed
to Hickman last March. He is one
of the largest land owners of this county.
Before his removal to Hickman, his
estate was valued at \$1,000,000, and he
was the owner of the famous
Bonne district—Tiptonville Prom.

—When the irrepressible girl goes shop-
ping, says an exchange, she never knows
what she wants, though she frets her eyes
in the well-stocked store she becomes
wildly confused. She can't center her
self on anything, so it's a sample of this,
please; and a sample of that, please;
and of something else, please, until she
is loaded with scraps of every hue and
texture. She takes them home and
finds that she has no room for them
point, shows them to her mother, sisters,
brothers, the cook, and his over to the
garage. Then, left, here, there
and everywhere until she declares she
must make her own selection without
help. But with the assistance of
half a dozen more trips to the different
stores she decides she will not take any
more. She takes it to Louisville, or New
York, or Chicago, or St. Louis for more
samples. What would the dear things
do without employment?

THE ELECTION.

Democrats Redeem Maryland.

Nebraska Increases Her Ma-
jority.

Kentucky Claimed by Both.

Ohio Overwhelmingly Repub-
lican.

All interest in the elections
Tuesday centered in the States of
Kentucky, Ohio, Nebraska and
Maryland.

Kentucky is trembling awkwardly
between the rooster and the
log cabin. The Republican State
Committee claims it by about
7,000, and the Democratic Com-
mittee by 5,000. It will probably
take the official figures to decide
and probably then the Governor's
election will be contested. The
Legislature is safely Democratic.
The personal antagonisms provok-
ed by Goebel's nomination over-
shadowed all other issues.

The Fusionists earned the State
by a majority of not less than 15,
000, electing ex-Governor Bol-
comb to the Supreme bench. The
Fusionists made heavy gains in
nearly all Maryland strongholds.

NEBRASKA.

Smith, the Democratic candi-
date, was elected Governor by a
majority estimated at from 10,000
to 15,000. It is reasonably certain
that the lower house of the As-
sembly will be Democratic by a
safe majority, and the Democrats
will elect enough State Senators
to offset the Republican hold
overs.

OHIO HAS GONE.

Ohio has gone Republican by
about 30,000 plurality. McLean
carried Cincinnati and reversed a
Republican majority in Hamilton
county.

MASSACHUSETTS.

Massachusetts went Republican
by a reduced plurality. Crane car-
ried the State by 50,000. Boston
went Democratic by about 7,000.
The Democrats gained some
members of the Legislature.

NEW JERSEY.

New Jersey returns indicate
that the Republicans will retain
control of the Senate and Assem-
bly. The Democrats made gains,
but not sufficient to influence the
result in the senatorial election,
which takes place in 1901.

MISSISSIPPI.

In Mississippi the entire Demo-
cratic State ticket was elected by
an overwhelming majority.

VIRGINIA.

Returns from Virginia indicate
that the Democrats will have a
trifling majority in the Legis-
lature. McLean secured himself
in the U. S. Senate.

NEW YORK.

Although the election in New
York was purely local, the Repub-
licans went before the people
on national issues and were sound-
ly thrashed. The Republicans will
control the next Legislature by a
loss of two. Tammany swept the
decks in New York county.

PENNSYLVANIA.

Pennsylvania probably elected
Col. James E. Barrett, (Rep) for
State Treasurer by a majority of
100,000. The Republican pluri-
lity in Philadelphia is estimated
at 40,000.

SOUTH DAKOTA.

It is estimated that the Repub-
lican nominees for Supreme Judge
in South Dakota, was elected by
about 10,000 plurality.

IOWA.

Returns from Iowa indicate that
the Republican State ticket was
elected by 60,000 plurality. The
Republicans also made gains in
the Legislature.

WE ARE HERE TO STAY AND DOING

ning's store. No one will appreciate
your patronage more, or take more

CARD.

On the eve of going to the conference
I take this method of expressing my
gratitude to the ladies who so gener-
ously presented me with a handsome over-
coat.

W. G. HARLEY.

THE GREAT PRESIDENTIAL CAM- PAIGN OF 1900.

The politics of the great political
party are now being formed and the
issues discussed. The vote of the peo-
ple as recorded by ballot at the ap-
proaching Presidential election will prob-
ably decide the destiny of the nation for
the next decade. Every citizen must
know the great questions that are to
be decided. This can be done only
through the medium of a great news-
paper. Now is the time, therefore, for
every voter to subscribe for the best
and most reliable newspaper obtainable.
The Weekly Republic covers the whole
field of political news. While it is de-
tailed it publishes the news in regard to
all political parties without prejudice. Its
telegraphic and cable news service is
unlike any other paper. Its special
features are the best. In taking
it is the paper for that large class of read-
ers who cannot afford or do not have
time to read the daily papers.

Attention is also called to the Repub-
lic's Sunday Magazine. Its half price
instructions make it worth the subscrip-
tion price. It is made up of special ar-
ticles by the best literary talent, embrac-
ing a variety of current subjects of in-
terest. New features of absorbing in-
terest are illustrated and enlarged upon.
For the benefit of the ladies the latest fash-
ions are handsomely illustrated. The Re-
public Sunday Magazine is always inter-
esting to every member of the family.

The subscription price of the Semi-
Weekly Republic is \$1.00 per year. The
Republican Sunday Magazine is \$1.25 per
year. Both papers are now being offered
at the very low price of \$1.50 a year.
Secure this low rate both must be ordered
and paid for at the same time.

BOERS SEEM TO HAVE THEIR OWN WAY

Gen. White, With the Aid of the Naval Guns, May Be Able to Hold His Own at Ladysmith.

He May Make a Desperate Effort to Cut the Way Back Into Lower Natal and Join Haines with the Garrison There.

London, Nov. 7.—The war office announced at midnight that no dispatches had been received beyond those already made public and nothing further would be issued before noon Tuesday. Thus not a solitary official item of news has been posted for 24 hours. This has given rise to a crop of rumors that Ladysmith's ammunition is exhausted, that Sir George S. White is mortally wounded, that both facts are being concealed and that other unlikeliest happenings have been planned.

For all of these reports there is absolutely no foundation. At the same time the Britisher has had little to stimulate him since the last 24 hours except that the news of the confident attitude of the Ladysmith garrison and its slight successes last Thursday and Friday.

POSTAL MATTERS

The Annual Report of the Auditing of the Post Office Department—Money Order System.

Washington, Nov. 7.—The auditor of the post office department in his annual report shows that during the last year the number of post offices in the United States increased from 71,976 to 72,584; the number of domestic money orders issued increased from \$1,798,078, representing \$401,118,717, to \$2,007,570, representing \$483,535,390; increase in number of 1,599,792, and in volume of \$1,300,000. During the year the revenues of the postal service increased from \$99,012,418 to \$99,021,584, and the expenditures from \$97,853,807 to \$101,612,103, a net increase in the receipts of \$1,167,777 and in the expenditures of \$3,758,785. Upon this showing the auditor asks for an increase of 30 clerks as a minimum requirement for the year 1900.

Considerable space is devoted to the subject of money orders, and it is stated in given which shows that during the last year the system was conducted at an actual loss to the government of approximately \$103,100, which fact, the auditor says, would suggest the exercise of great care in legislating for the employment of new financial features in the postal service.

The annual revenue for the year is shown to have been \$101,021,584 and the expenditures \$101,433,209, leaving a deficit of \$411,625. Of this amount the treasury has advanced \$6,000,000, the balance unpaid being \$1,413,625. The amount of second-class postage collected from publishers and new agents was \$3,537,052, and the amount of stamps sold was \$1,413,625.

FREE DELIVERY.

The First Announcement of the First Assistant Postmaster General Perry Heath.

The Adoption of a California Mail Box for the Service to the Post Office and to Repair by the Department.

Washington, Nov. 6.—A vigorous idea for rural free delivery is made in his annual report of First Assistant Postmaster General Perry Heath, made public Sunday night.

Mr. Heath says the service so far has resulted in increased postal receipts amounting to the value of farm lands reached by rural free delivery of \$2 to \$5 per acre; a general improvement of the condition of the roads traversed by the rural carriers; better prices for farm products; the producers being brought into daily touch with the state of the markets; besides educational benefits conferred in relieving the monotony of farm life through ready access to wholesome literature and knowledge of current events.

Young women in society are laughing at a great deal nowadays. Even those who are not naturally given to laughter send out peal after peal of merriment. The silly laugh is the result of weeks and months of special training and hours and hours of patient practice. Perfection is attained only through private instruction. This laugh is taught by the most successful method applied to entertain conversation in the most pleasing manner.

For bargains in jewelry call on Knicker as he is closing his stock out at a big sacrifice.

Here is a late swindle, and one that may profit farmers to keep an eye open for. A "farmer" has been seen lately with samples of corn. The ears will be from here to eight times the size of ordinary ears of corn, which he alleges he raised from seed sent him by his "brother," who is engaged in farming in a foreign land. He offers to sell the ears for twenty-five cents, or the whole ear for two dollars.

Be wary to find out if it is nothing but ordinary corn. A number of ears of corn are distributed out, and then those together to form one large ear.

Now is your opportunity to buy a pair of celebrated Brown Shoes. All go at cost at Buchanan's.

GRAND METEORIC MEN.

Watch the Heavens the Night of November 16th.

The expected return of the main body of the November meteoric shower, which every other astronomer expects to fall, The apogee of their display in 1833, made us sleep an impression that they have ever since occupied a place apart in the popular imagination as the most gorgeous and startling of all celestial pageants. The fact that three of their periods measure just the span of a century tends to add to their reputation as a spectacle. Although their return are separated by a space of thirty-three years and a fraction yet they may be seen three times in the course of a man's lifetime. One who saw them as a child in 1833, might have regarded their fiery menace with the cooler judgment of a middle-aged man in 1866, and this year may behold again the scene that marked the start and the turning point of his life with incredible memories of wonder in the heavens.

NOVEMBER BLIZZARDS.

W. W. Marsh, of Winton Place, Ohio, predicts heavy storms for November, and that snow and sleet will fall in the latter part of the month. The New England and New Jersey coasts will bear the brunt of fierce gales that will also visit the Gulf of Mexico and the great lakes. According to the prognostications of Mr. Marsh the great famine will be at an end, and as a good stage of water will prevail in the Ohio.

Mr. Marsh promises a magnificent meteoric display between the hours of 3 and 4 on either the morning of the 18th and 19th. Between the 23rd and 27th cold wave, snow storms and killing frosts throughout the Ohio valley. General heavy snow storms and cold wave through the Upper Allegheny and the lake region, and heavy snow in the Ohio valley. DEMOCRATS TO CONFIDE.

There will be a meeting of the National Democratic Executive Committee held in Chicago on the 20th inst. It will be a business meeting of the Committee and a conference of the National leaders of the Democratic party. W. D. Bryan will be in that city, and Senators and National Representatives on their way to Washington from the West will spend a couple of days in that city to meet Eastern and Southern Democrats, who are expected to be in Chicago on that day. It is probable an address to the Democrats of the country will be issued by the committee after the party leaders have had a conference.

CONSTITUTION IN INVALID.

The Supreme Court of the United States, last week, heard argument in a case involving the right of the Board of Education of Richmond county, Va., to establish a public school for colored children. The case was based upon the petition of a number of colored people of the county, who asked that an order be issued either compelling the board to give their children the advantages of a public high school, or to compel the board to refrain from carrying on white high schools, for the support of which the petitioners are taxed. The case involves the construction of the Federal constitution, and has attracted considerable attention. Former U. S. Senator Edmunds appeared for the colored people.

SIGNIFICANT NEWS.

We do not care to be contentious about it, but we would respectfully invite the attention of thinking Democrats to the new relative to the policy to be pursued by the Democratic Weekly Bulletin, to be edited by Sam B. Cook, under the direction of the National Committee. The new paper appeared in the Associated Press dispatches and will at least afford food for thought. It indicates to those who are not so blind that they will not see the existence of a quiet, but nevertheless an effective, understanding among the National leaders to make two questions predominant in next year's campaign—"Integrity" and "Imperialism." Sam Cook is not acting blindly. He is beyond question acting under the advice of leaders who deem a new plan of battle more promising of success.

HERT BY THE TRUSTS.

Defenders of trusts say that prices of commodities are reduced by the combines and that the trusts hurt nobody.

Is that so? How about structural steel? The trust controls the market and the price of this commodity has been increased 85 per cent.

Surely somebody is hurt by the steel trust.

Not only are the builders injured, but the men who do not build. The man with the hoe is injured. His instrument of labor cost him 85 per cent more than formerly. Thus the farmer is robbed by the trust, which is claimed not to harm anybody.

But the injury does not end here. Every small manufacturer who does not get business from the trusts is out of business. Many of these small manufacturers are forced to feel the pressure because consumers cannot afford to patronize them. Laborers are compelled to take lower wages because the injury is widespread and all embracing.

How about the tin plate trust? It has the same story. Small plants closed. Large plants absorbed. Laborers reduced to starvation wages. Merchants impoverished by loss of trade. Prices advanced. And yet we are told that the trusts injure nobody.

The greatest ginseed farm on earth is located in Grayson county and belongs to T. E. Gardiner of Elizabethtown. The farm consists of two hundred acres. One hundred is in timber. Under one tree was recently gathered five pounds of this valuable oil. It is worth \$3 a pound. Mr. Gardiner has figured it out that this land is at \$200 to \$300 an acre which is a small average the ginseed is worth \$750 per acre, making the farm of 100 acres of timber worth \$75,000.

Used by British Soldiers in Africa. Capt. G. H. Denison is well known all over Africa as one of our best forces that captured the famous red Galla. Under date of Nov. 4, 1897, from Verburg, Bechuanaland, he writes: "Before starting on the last campaign, I bought a quantity of 'Chamberlain's Cough Syrup' and 'Chamberlain's Kidney Pills' and 'Chamberlain's Stomachic' which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved beneficial." PRaise of Whiskey.

Rev. Dr. Hillis, who filed Prof. Swift's Chicago pulpit could be called to occupy the post in Plymouth Church made famous by Beecher and adorned by Layman Abbott, has been saying things in favor of liquor of every kind, the wine, the wheat, against which not only the apostles of prohibition are protesting, but with which the temperate cannot agree.

When he says whiskey contains all the constituent elements of food he's on doubtful ground. When he contends that all drunkards are hereditary drunkards, and that they drink because they are unable to refrain, he is out of agreement of the run of human experience.

In a sense we are an intemperate people, not so much as other people, but sufficiently to warrant the general statement—but it is not a fact that those who drink to excess are hereditary drunkards. Twenty out of every twenty-one of them acquire their drunk mien without any assistance or any incentive whatever from their ancestors. Immediate or remote, and could abstain with the exercise of a little courage, in fact, would abstain, with or without courage, if special opinion set its face against such conduct.

Equally in error is Dr. Hillis in stating that whiskey for every ten it makes miserable it makes hundred a error.

But whether whiskey is a remedy or a misremedy, whether it is useful as a medicine or as a snake poison antidote, an exhalation of the benevolence from the pulpit is an innovation upon propriety that is almost sure to leave an unpleasant taste in the mouth of even a lifelong patron of John Barleycorn.

English Boer War.

Not since Great Britain's war

over her colonies in this country has there been so astounding a record of the success in war of the weaker against the stronger force.

Americans are proud to believe that the "unconquerable" of their Revolutionary times was due to that spirit of liberty which dictated defeat rather than submission to tyranny.

The Boers claim that they are upheld by the same spirit. It must be confessed that they are making much the same record as did the Americans in '76.

In history about to repeat itself with the people of South Africa to stand as permanent proof of the repetition!

Of course the thought is to be severely entertained that anything can result except the ultimate triumph of the English. Their regular and affiliated army is set down at 600,000, and the trained force that they could throw into quick service is more than one million men.

Germany, Russia and France want to help the Boers but they will not do it. They are too much afraid of their own dynasties.

PRESIDENT'S NEXT MESSAGE.

The coming session of Congress will very definitely decide the lines upon which the presidential fight will be conducted. The minority will force the administration force to display their hand and accept the issues and the President will be required to take the initiative, as he must make recommendations to Congress. His message this year thus becomes of far greater importance than any document Mr. McKinley has written.

No one realizes this more than he, and it is no secret among his supporters that the trip through the Northwest was more to sound public sentiment than otherwise. The President wanted to get close to the voters and note the reception which reference to such leading questions as the Philippines might receive. The popular expression of sentiment will guide his hand as he pens his message to Congress.

—Olliston Democrat: Postmaster Tom B. Adles and son of Fall town, were bound over in the sum of \$200 each to appear at court to answer for assaultive and seriously hurting Mr. A. R. Robinson in a difficulty a few days ago.

On motion, the City Clerk was directed to collect amount of above accounts and pay same into the city treasury.

The following preamble and resolution was presented by Councilman Cogswell, and was unanimously adopted:

"Whereas, Our associate Councilman, Mr. C. F. Hoon, died on the 10th day of October last; we

Resolve, that in the death of Mr. Hoon the city has lost an active and efficient officer, this community a good citizen, and this family a devoted husband and father, and that we express to his family our sympathy with them in their bereavement, and that this resolution be spread on the minutes of our proceedings."

The City Clerk reported that H. N. Cogswell, City Assessor, had returned to him the assessment book for 1899.

Mr. H. Buchanan made a proposition to the Council that he would present to the city a site fountain to be erected in the public square in front of the Post Office (if the Railroad and city would complete the work on said square as began, which proposition was accepted by the city by a unanimous vote.

On motion, the Council adjourned.

Attest, W. L. McGuffey, C. C.

Reelfoot Lake Fishing Industry.

All told there are 1200 nets in Reelfoot Lake which are operated by some 500 or 600 fishermen. Taking into account the employment of the fish houses here and at Union City, the drivers of the wagons that bring the fish from the lake, the hotel-keepers on the lake and others at least a thousand and perhaps derive a living from the fishing industry.

The Tennessee county clerk reports that New York county a plurality of 45,000, but the indications are that the Republicans made substantial gains in the State outside of New York city.

Organized Plundering.

The soft coal combination in Western Pennsylvania was no sooner organized than it advanced. There is no scarcity of bituminous coal. Scarcity is impossible unless artificially produced for the hills are full of coal. There has been no increase in wages to justify the advance. It seems to be an instance of organized plundering.—Philadelphia Record.

There was a heavy fall of snow in all parts of Kentucky Friday, intermixed with cold, drizzling rains. The earth being warm, it melted as fast as it fell.

It will not be a surprise to any one who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine in the relief of the lungs.

The City of St. Louis has been cured of the threatened attacks of pneumonia. It has saved from attacks of pneumonia it has averted, and of the children it has saved from attacks of pneumonia it has averted. It is a grand, good medicine. For sale by Cogswell & Cogswell, Hickman, and A. M. Snow, State Line, Druggists.

No Right to Whip.

The Supreme court of Tennessee, on last week decided that no workhouse, city county or State prison keeper has a legal right to whip a prisoner therein. The court sustained a judgment for \$500 returned by a lower court against the keeper of the Knox county workhouse for whipping a colored woman who was surly. The decision leaves the prison-keepers, except that they may reduce them to docile and feed them on bread and water. Every prisoner who has been whipped for the past year may sue and recover damages.

JAMES J. JEFFRIES was awarded the decision over Tom Sharkey Friday night after twenty-five rounds of brutal, slugging at the Coney Island Clubhouse. Ten thousand people witnessed the fight and went wild over the spectacle of two human bulldozers, with blood streaming from their battered faces, pouncing each other savagely all over the ring.
